

## Elegance and technology at the new interactive restaurant of Budapest

**The innovative Urban Betyár visitor center is a unique mixture of a restaurant and ethnographic exhibition space in the heart of Budapest. The facility welcomes anyone who is interested in discovering the diverse cultural heritage of the Hungarian countryside or tasting some of the traditional Hungarian dishes.**

A modern lighting system of an interactive visitor center functioning as a restaurant and museum has to meet multi-level requirements. In its design, solutions were required to consider the aspects of both appearance and functionalism as well as energy-saving operation. During the interior design of the restaurant, an important guiding principle was to keep as many interior utilities as possible in their original state.

Accordingly, the steel pillars and ceiling mounts were replaced with a new dark-green or black stain instead of covering them with a false ceiling. The task of the lighting was to achieve, in spite of the dominant dark colors, a spacious and airy feeling of space in the visitors. The function of the lightning in the restaurant was primarily the creation of an intimate, yet elegant atmosphere, but at the same time a user-friendly lighting system with variable lighting schemes had to be installed. In the exhibition space, heavy lights were needed to compensate for the low ceiling height, so the choice of the customer fell to Feilo Sylvania's products which are mainly used in retail.

### KEY FACT

**Client:** Urban Betyár

**Location:** Budapest

### KEY OUTCOMES

- Multifunctional lighting system
- Low operating cost
- Feilo Sylvania offered a complete lighting solution

# Concord Lumiance SYLVANIA

The award-winning Concord Beacon XL LED combines cutting-edge LED and innovative optical lens technology in the form of a high-quality spotlight. These features and high CRI 97 color rendering make the product the ideal choice for any application where high brightness and long lifetime are the primary aspects. The 110 Concord Beacon XL LED luminaires used in the project were fixed with the elements of the flexible, customized Lytespan track system.

*"The Urban Betyár Restaurant and Bar hospitality area needed lighting elements that are capable of creating an intimate yet elegant atmosphere while lighting can be tailored according to the needs of any type of events" - Balázs Tóth, Inesa Europa*

## About Feilo Sylvania

Feilo Sylvania is a leading, full-spectrum provider of professional and architectural lighting solutions. Built on over a century of expertise in lamps and luminaires, Feilo Sylvania supplies internationally state-of-the-art products and systems to the public, commercial and private sectors. All over the world, people rely on group business divisions: Concord, Lumiance and Sylvania, for top quality, energy-efficient solutions.
